

Voting for the right judge really does matter.

Some day you or a family member may have to go to court. It could be something as simple as a traffic ticket or as complicated as a multi-party lawsuit. Either way, it's important to have the most qualified person holding the gavel.

Citizens for Better Judges does the research you need to make well-informed choices. We've assembled a diverse team of experienced attorneys and civic leaders who dedicate hundreds

of hours doing thorough and non-partisan research — interviewing each candidate and reviewing all of their qualifications.

Finally, our endorsements are monitored and certified by non-legal volunteers. Take this ad with you when you go to the polls this Tuesday. It will help you feel more confident in the choices you make.

Citizens for Better Judges endorses these candidates as the most qualified on the Tuesday, Nov. 4th ballot.
